***Subject:* Request for Permission to Collaborate on Capstone Project**

Dear Mam/Sir,

My name is Rohit Raj, and I am currently in my second year of the BS in Data Science program at IIT Madras. As part of my academic curriculum, I am required to undertake a capstone project that provides practical experience in a real-world business environment.

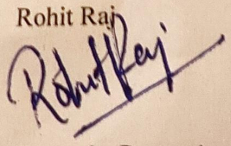

I am very interested in collaborating with Difa Velacheri franchise for this project, as I believe your organization offers a dynamic and innovative environment that aligns perfectly with my learning goals. Through this project, I aim to apply my data science skills to real business challenges, while also contributing valuable insights to your organization.

To fulfill the requirements of my project, my institute requests written consent from the business owner. I kindly ask for your permission to work with your organization and would appreciate it if you could sign below to indicate your approval.

Thank you for considering my request. I am happy to provide more details or answer any questions you may have regarding the project. I look forward to the possibility of working together.

Sincerely,

Rohit Raj

Owner's Consent

I, Mrs. Sridevi/Mr. Mani owner of Difa Velachery shop, hereby grant permission to **Mr.Rohit Raj** to collaborate with our business for his capstone project as part of his BS in Data Science degree at IIT Madras.
